

Polishing Machine

- Materials: metal, plastic
- Wear face shield
- Wear a dust mask if you need one
- Smooth off ragged edges on the soap; discard small piecesⁱ
- Apply soap gently, little and often; return it to the shelf
- Have a good stance and grip with fingers firmly capped around the outside of the work
- **Never** hold the inside of the work or hold it in a cloth or apron or polish wires, chains, linked pieces
- **Always** hold the polish or work against the lower quarter of the mop gently
- If the work gets hot then let it cool before continuing polishing
